It makes us feel good, unique, and beautiful. Moreover, fashion boosts the economy and creates jobs for a huge number of people. Don't be into trends. Don't make fashion own you, but you decide what you are, what you want to express by the way you dress and the way to live.

Be

Fashion is the armor to survive
the reality of everyday life. We
don't design clothes. We design
dreams. Fashion is very important.
It is life-enhancing and, like
everything that gives pleasure, it is
worth doing well.

A woman with long brown hair, wearing round pink-tinted glasses and a long-sleeved pink dress with a colorful floral pattern, stands in front of a highly ornate, teal-colored door. She is looking towards the camera with a slight smile. The door has intricate carvings and a central panel with a circular motif. The overall mood is artistic and fashion-oriented.

DO MORE OF WHAT MAKES YOU HAPPY

What's my style?
Is not your style,
and I don't see how
you can define it.
It's something that
expresses who you
are in your own
way. Fashion is part
of our culture, and
it's about more than
just a pretty dress.

Is your FRIEND

The best fashion advice I'd say would be just to do what makes you comfortable and what makes you feel cute, and that's how you're gonna look your best 'cause when you feel your best, everybody else can feel it, too.

We have always believed that fashion was not only to make women more beautiful, but also to reassure them, give them confidence. Style is a way to say who you are without having to speak. Create your own style... let it be unique for yourself and yet identifiable for others.
